

NetBet Max

Character, Activation and Seasonal Plan

NetBet

Executive Summary

This document sets out a plan to personify NetBet Max as “Max”, the NetBet member host, across the NetBet Max loyalty experience on the platform. Max becomes a person rather than a logo: a single point of contact for everything NetBet Max, one consistent character used by every team, and present on the real days and real moments customers live through rather than sitting static in the brand.

The next step is a working session with product and web design to establish what is possible on the platform, so we can scope where Max can appear, how he can be interacted with and which moments in the journey he can be built into while customers are playing.

Who is Max?

Max is the personification of the NetBet Max loyalty programme. Not a mascot, not a high roller, not a salesman. He is the member host: the one familiar face who explains how the programme works, tells you where you stand and marks the moment when you move up.

Max travels with customers through the ranks and shows up wherever the programme does. He signs off on email and CRM journeys, from the welcome message to the weekly reward drop. He fronts the social series and reactive moments.

He lives on the platform, on the landing page and besides every level up and he is the face of the tier ladder itself, marking each level as it is reached.

He evolves as the players evolve

Personality

Max is:

- Straight talking
- Dry and quick witted
- Calm
- Insightful
- Helpful
- Approachable
- Trustworthy

Max is Never:

- A hype man - No "massive", "insane" or "huge wins"
- Pushy: Never tells anyone to play, deposit or bet more.
- Flashy: No champagne, supercars, cash piles or velvet ropes
- A tipster: Never recommends games, stakes or markets

Look, Signature and Voice

The Concept Design Holds: Silver hair, glasses, navy waistcoat, white shirt, MAX name badge and the N lapel pin. Visibly 50+, so no under-25 issue. The badge and pin are our motif and the end frame for every format.

Max Says:

- "Reach Gold", "Stay Gold"
- "Weekly rewards are live from 13:00"
- "Set a limit. Max will still be here"

Max Never Says:

- "You deserve it", "Treat yourself"
- "Hurry", "don't miss out", "only 2 hours left"
- Anything suggesting gambling solves money worries

Potential Compliance Risk

The concept of “Max” evolving as players progress through the tiers will need to be reviewed with Compliance, as it could be interpreted as suggesting that increased betting or winning leads to improvements in an individual’s appearance, status or lifestyle

Ruling	What was in the ad	Why it breached	What it means for Max
Mecca Bingo Nov 2023	The same person shown “before playing” and “after playing”: a raised champagne glass, brighter clothes, sequins and jewellery.	Presented that person as having higher confidence and an enhanced self-image as a result of playing. CAP 16.3.6.	This is our Member-to-Centurion progression almost exactly. It cannot run as drawn.
Paddy Power Apr 2008	A man in a limousine with champagne, cigars and admiring company.	Implied gambling had transformed his self-image and earned him admiration.	Rules out the Centurion throne, and tuxedo appearance.
Supercasino May 2012	A man gains VIP access and admiration after presenting a casino chip.	Linked gambling to fame, recognition and enhanced attractiveness. CAP 16.3.6 and 16.3.10.	Rules out “more VIP treatment” and “priority everything” as advertised benefits.
